

Project Updates 1.0

By Shashank Kumar (24BAI10032)

Project Title: RoomSync – Hotel Reservation & Management System

1. Creation of Collections within the roomsync database:

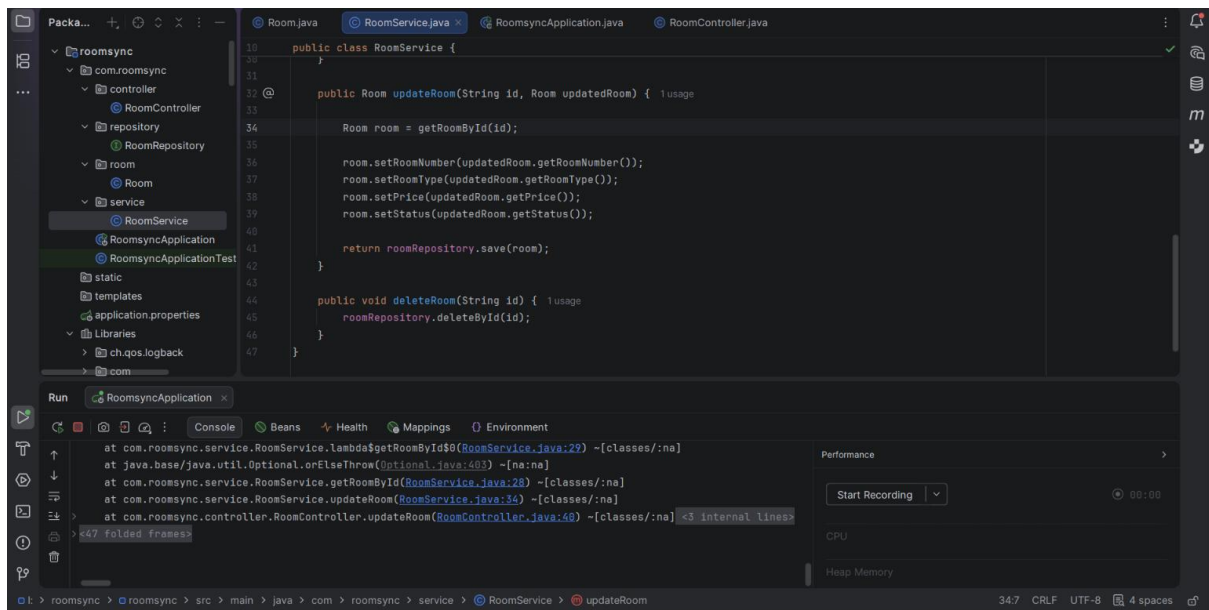

The screenshot displays the MongoDB Compass interface with the MongoDB Shell open. The left sidebar shows the 'CONNECTIONS (1)' section with a list of databases: Coffee, CollegeDB, Test1, Vitocampus, admin, config, crud, local, and test. The main panel shows the MongoDB Shell with the following commands and results:

```
>_MONGOSH
"price":2500,
"status":"AVAILABLE"]]);
< {
  acknowledged: true,
  insertedId: ObjectId('6a300822dadd853be456da3f')
}
> db.customer.insertOne([
  "_id":"C001",
  "name":"Shashank Kumar",
  "email":"shashank@gmail.com",
  "phone":"9876543210"
]);
< {
  acknowledged: true,
  insertedId: ObjectId('6a300851dadd853be456da40')
}
> db.booking.insertOne([
  "_id":"B001",
  "customerId":"C001",
  "roomId":"R101",
  "checkInDate":"2026-06-11",
  "checkOutDate":"2026-06-14",
  "bookingStatus":"CONFIRMED"
]);
< {
  acknowledged: true,
  insertedId: ObjectId('6a30089fdadd853be456da41')
}
roomsyncdb>
```

The right panel shows the MongoDB Shell with the following commands and results:

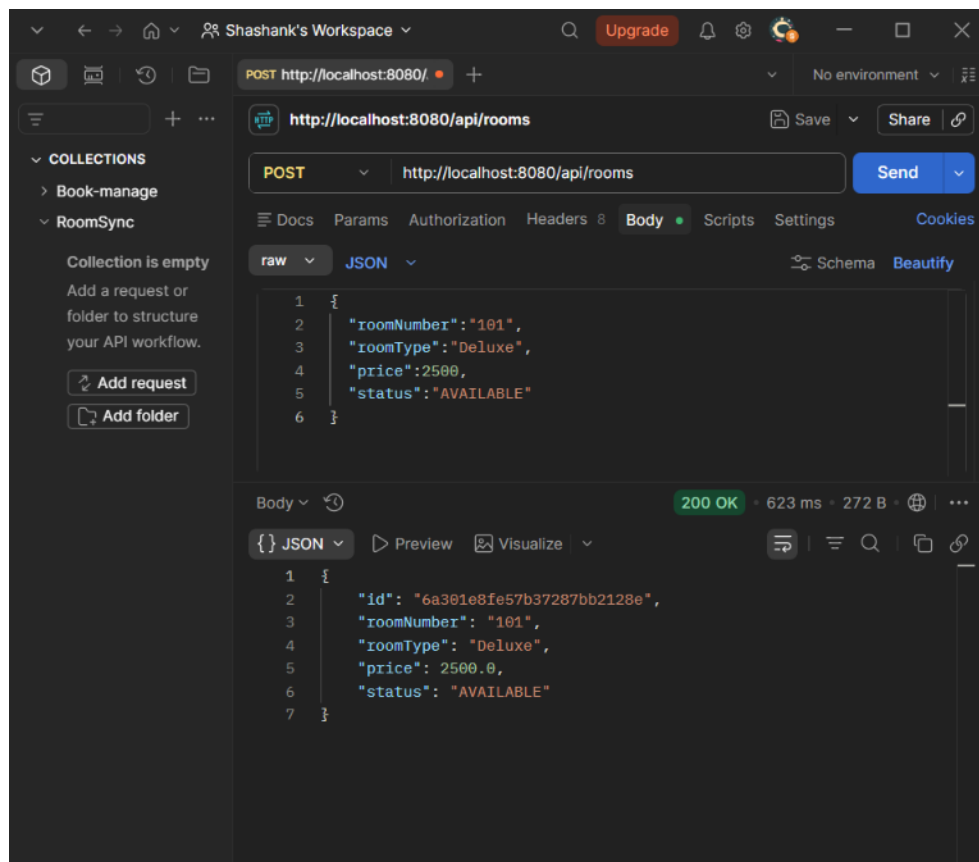

```
>_MONGOSH
> db.room.insertOne([
  "_id":"R101",
  "roomNumber":"101",
  "roomType":"Deluxe",
  "price":2500,
  "status":"AVAILABLE"]]);
< {
  acknowledged: true,
  insertedId: ObjectId('6a300822dadd853be456da3f')
}
> db.customer.insertOne([
  "_id":"C001",
  "name":"Shashank Kumar",
  "email":"shashank@gmail.com",
  "phone":"9876543210"
]);
< {
  acknowledged: true,
  insertedId: ObjectId('6a300851dadd853be456da40')
}
> db.booking.insertOne([
  "_id":"B001",
  "customerId":"C001",
  "roomId":"R101",
  "checkInDate":"2026-06-11",
  "checkOutDate":"2026-06-14",
  "bookingStatus":"CONFIRMED"
]);
< {
```

2.Current Status of Project:

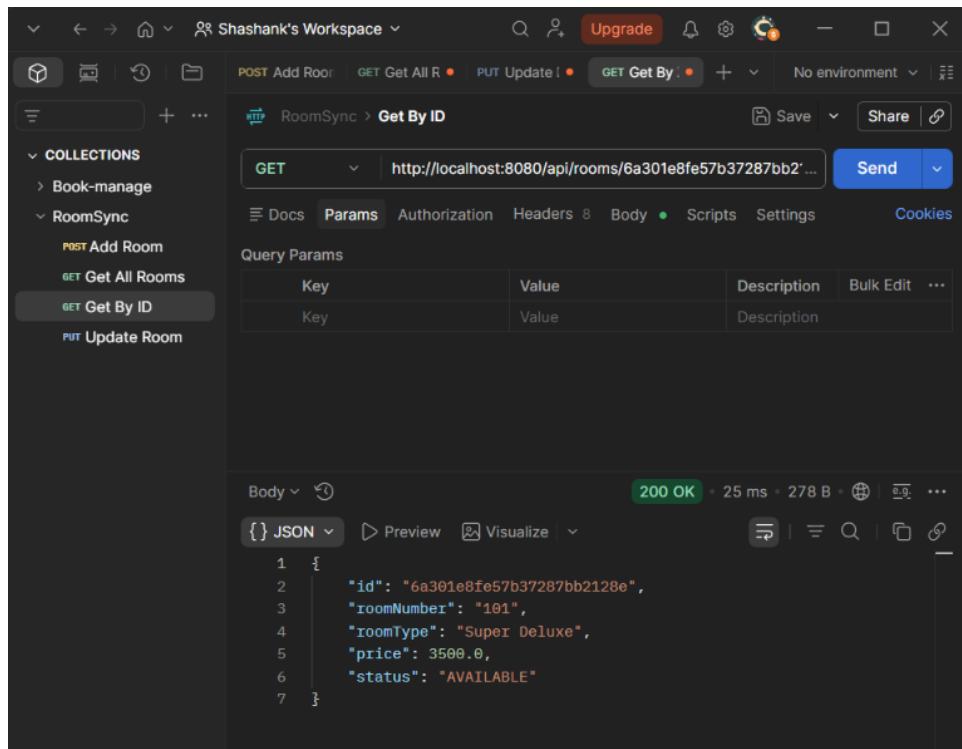

3.Room Management (CRUD Operations):

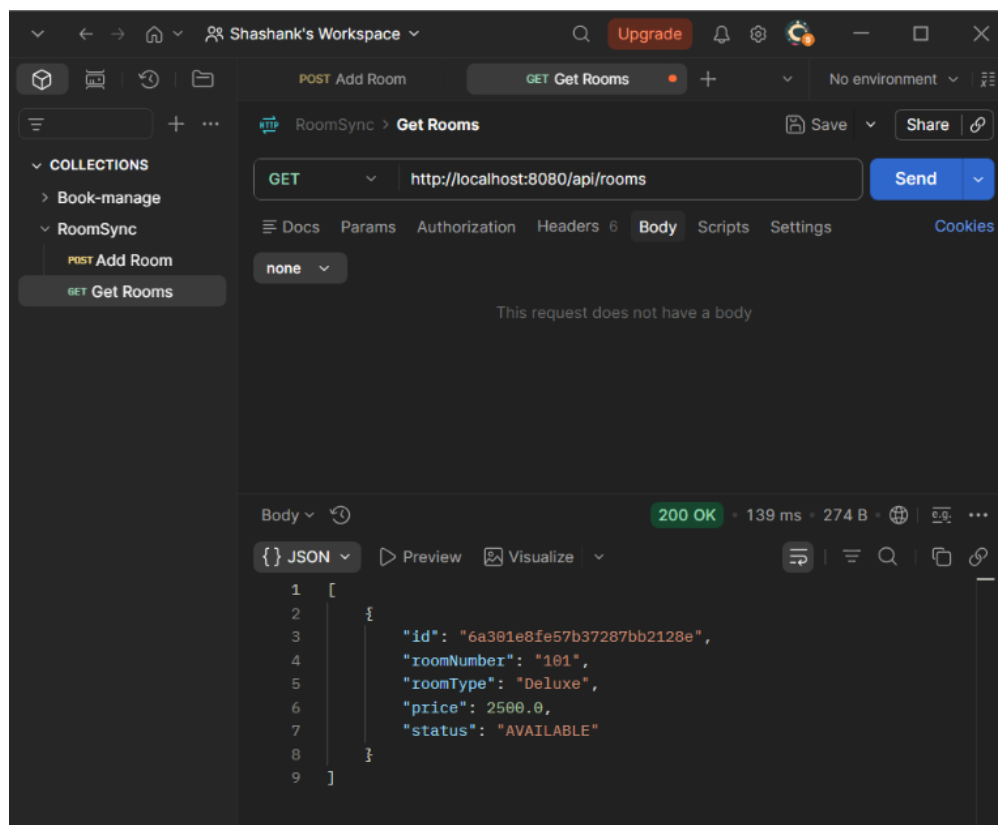

1) POST()

2) Get By ID:

3) Get All Rooms:

4)Update Rooms:
